African Violet Cuttings
Spring 1959 List

All plants are state inspected. Clumps will be a rooted leaf, small plants showing, up to plants large enough to divide, largest possible will be sent. If you prefer small plants you may request them and they will be sent if available. Earliest orders will receive the largest plants.

15 clumps--\$4.00 post paid, my choice of varieties from this list. You may have singles or doubles or both.

15 clumps--\$5.00 postpaid, your selection from this list. Varieties marked 40¢ per cutting. Minimum order \$4.00. Your order automatically puts your name on the mailing list for the following year.

I have a tremendous supply of large cuttings and welcome both dealers and collectors to my home. Please make an appointment when coming from a distance. I live 5 miles West of Freeport (Rte. 20) to Club Esquire, turn North $\frac{1}{4}$ mile.

Send 3¢ stamp for list of new varieties available in June.

SUPPLIES

MAGIC MIX--a prepared mix for starting gloxinia, begonia, episcia, violet or any plant cutting, a fine medium for starting seed. It contains no soil or chemical fretilizers. It can be used alone or combined with equal parts of violet soil for growing and blooming large specimen plants. If you prefer to root cuttings in water they can be transferred to this mix without shock.

Magic Mix should always be moist, not wet when used. Press firmly into container, plant cuttings, water thoroughly firming mix around cuttings. When dividing cuttings always water thoroughly, cutting can then be easily divided without injury to roots.

Atlas Fish Emulsion is recommended as fertilizer.

Magic Mix--2 quarts \$1.00--5 quarts or over 40¢ per quart postpaid.
Atlas Fish Emulsion--1 pt. \$1.50 postpaid--4 oz. 75¢ postpaid.
